Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 25 July 2003.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7-25-2003 has been entered.

Claim Objections

Claims 4 and 5 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The above claims do not fairly further limit independent apparatus claim 1 because the step of varying the slant angle by any specific amount is a limitation dealing with the manner or method of use of the claimed apparatus and it has been well settled that limitations dealing with the manner or method of use of an apparatus cannot be relied upon to fairly further limit claims to the apparatus itself. see *In re Casey*, 152 USPQ 235 and MPEP 2114.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-5 are rejected under 35 U.S.C. 102(a) as being anticipated by WO 99/03630.

WO 99/03630 teaches, in the embodiments of figures 1 and 3 for example, a crucible (310) with a conically shaped orifice (304) having a fixed outlet diameter and oscillating member (300) including a conically shaped head extending through the outlet orifice and serves to continuously vary the size of the effective size of the orifice, thereby showing all aspects of the above claims.

Response to Arguments

Applicant's arguments filed on 7-25-2003 have been fully considered but they are not persuasive. Applicant's argument that WO'630 does not teach inherently varying the outlet diameter or slant angle in order to increase the range of drop sizes produced is not persuasive. WO 99/03630 teaches, in figure 3 for example, a conical outlet and oscillating member with a conically shaped head of substantially identical form as that of the instant claims and which are operated in substantially the same manner as that of the instant claims (the oscillating member is oscillated within the outlet), therefore it would be reasonably expected, absent any express showing to the contrary, that the apparatus of WO 99/03630 would be inherently able to operate

in substantially the same manner with substantially the same effect as the apparatus of the instant claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott Kastler whose telephone number is (703) 308-2506. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Roy King can be reached on (703) 308-3050. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 872-9310 for regular communications and (703) 872-9311 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0651.
